My name is Teboho, an I.T student of NWU (vaal triangle campus) and I'm currently in my final year of completing my degree.

I'm one energetic person and I like to get things done in time. I'm creative and problem solving oriented. I enjoy communicating and working with other people because I get to learn different things from them and I love learning, because I believe that if you know more then you can be more as an individual.
